

LONDON BOROUGH OF HAVERING**TOWN AND COUNTRY PLANNING ACT 1990****AGENT**

Mr. H. Melendez
Unit 107, Clerkenwell Workshops
27-31 Clerkenwell Close
Farringdon
London
EC1R 0AT

APPLICANT

N/A
8 Devonshire Square
London
EC2M 4PL

APPLICATION NO: P1103.22

In pursuance of their powers as Local Planning Authority, the Council have considered your application and have decided to **GRANT PLANNING PERMISSION** for the following development :

Proposal: Installation of underground cable route and associated works between the Land to the East of Warley Substation and Warley Substation

Location: Land to the East of Warley Substation
Clay Tye Road
Upminster

The above decision is based on the details in drawing(s):

0023/CD/D

0023/CE/E - 1 of 5

0023/CE/E - 5 of 5

0023/CE/E - 3 of 5

0023/CE/E - 2 of 5

0023/CE/E - 4 of 5

subject to compliance with the following condition(s):

Note to Applicants:

Please take the time to read the conditions stated below carefully. Some may require you to seek the Council's approval prior to works beginning on site. The approval process can take a further 8 weeks from the date of submission and you are advised to incorporate this into your timetable.

Please also check the informatives below to verify whether the scheme is liable for the Mayoral Community Infrastructure Levy. If the scheme is liable, **you are required to give notice of commencement in advance** so that a Demand Notice can be sent to you or any other person(s) that has/have assumed liability. The Levy is payable within 60 days of commencement. **If you are intending to claim self-build, social housing or charitable exemption, you must do this before development commences otherwise any exemption request will be disqualified.**

- 1** The development to which this permission relates must be commenced not later than three years from the date of this permission.

Reason:-

To comply with the requirements of Section 91 of the Town and Country Planning Act 1990 (as amended by Section 51 of the Planning and Compulsory Purchase Act 2004).

- 2** The development hereby permitted shall not be carried out otherwise than in complete accordance with the approved plans (as set out on page one of this decision notice).

Reason:-

For the avoidance of doubt and to ensure that the development is carried out as approved.

- 3** No works shall take place in relation to any of the development hereby approved until a site investigation is undertaken to assess the level and extent of any landfill gas present, together with an assessment of associated risks. The investigation shall be in accordance with a scheme submitted to and approved in writing by the Local Planning Authority prior to any development commencing.

If during development works any contamination should be encountered which was not previously identified in the Site Investigation then works should halt immediately and the Local Planning Authority consulted to agree appropriate further action.

Reason:-

The development is situated on or within 250 metres of a current or historic landfill site or gravel pit. Insufficient information has been supplied with the application to judge the risk arising from landfill gas. Submission of an assessment prior to commencement will protect those redeveloping this site and any future occupants from potential landfill gas.

- 4** All building operations in connection with the construction of external walls, roof, and foundations; site excavation or other external site works; works involving the use of plant or machinery; the erection of scaffolding; the delivery of materials; the removal of materials and spoil from the site, and the playing of amplified music shall only take place between the hours of 8.00am and 6.00pm Monday to Friday, and between 8.00am and 1.00pm on Saturdays and not at all on Sundays and Bank Holidays/Public Holidays.

Reason:-

To protect residential amenity.

- 5** No works shall take place in relation to any of the development hereby approved until a Construction Method Statement to control the adverse impact of the development on the amenity of the public and nearby occupiers is submitted to and approved in writing by the Local Planning Authority. The Construction Method statement shall include details of:
- a) parking of vehicles of site personnel and visitors;
 - b) storage of plant and materials;
 - c) dust management controls;
 - d) measures for minimising the impact of noise and ,if appropriate, vibration arising from construction activities;
 - e) predicted noise and, if appropriate, vibration levels for construction using methodologies and at points agreed with the Local Planning Authority;
 - f) scheme for monitoring noise and if appropriate, vibration levels using methodologies and at points agreed with the Local Planning Authorities;
 - g) siting and design of temporary buildings;
 - h) scheme for security fencing/hoardings, depicting a readily visible 24-hour contact number for queries or emergencies;
 - i) details of disposal of waste arising from the construction programme, including final disposal points. The burning of waste on the site at any time is specifically precluded.

And the development shall be carried out in accordance with the approved scheme and statement.

Reason:-

Insufficient information has been supplied with the application in relation to the proposed construction methodology. Submission of details prior to commencement will ensure that the method of construction protects residential amenity.

- 6** Upon the expiration of planning permission for the substation, the details of decommissioning works shall be submitted to and approved in writing by the local planning department. Therefore, the decommissioning works shall be carried out in accordance to approved details.

Reason: In the interest of the ecology and the environment.

INFORMATIVE(S)

- 1** Changes to the public highway (including permanent or temporary access)
- Planning approval does not constitute approval for changes to the public highway. Highway Authority approval will only be given after suitable details have been submitted considered and agreed. If new or amended access is required (whether temporary or permanent), there may be a requirement for the diversion or protection of third party utility plant or highway authority assets and it is recommended that early involvement with the relevant statutory undertaker takes place. The applicant must contact Engineering Services on 01708 433751 to discuss the scheme and commence the relevant highway approvals process. Please note that unauthorised work on the highway is an offence.

- 1** Highway legislation
- The developer (including their representatives and contractors) is advised that planning consent does not discharge the requirements of the New Roads and Street Works Act 1991 and the Traffic Management Act 2004. Formal notifications and approval will be needed for any highway works (including temporary works of any nature) required during the construction of the development. Please note that unauthorised work on the highway is an offence.

Temporary use of the public highway

- The developer is advised that if construction materials are proposed to be kept on the highway during construction works then they will need to apply for a licence from the Council. If the developer required scaffolding, hoarding or mobile cranes to be used on the highway, a licence is required and Street Management should be contacted to make the necessary arrangements. Please note that unauthorised use of the highway for construction works is an offence.

Surface water management

- The developer is advised that surface water from the development in both its temporary and permanent states should not be discharged onto the highway. Failure to prevent such is an offence.

Dated: 31st August 2022

Helen Oakerbee
Assistant Director Planning
London Borough of Havering
Town Hall, Main Road
Romford RM1 3BB

IMPORTANT - attention is drawn to the notes overleaf

**NOTES IN CONNECTION WITH APPROVAL OF APPLICATIONS SUBJECT TO CONDITIONS
OR REFUSAL OF APPLICATIONS FOR PLANNING PERMISSION**

- (1) If the applicant is aggrieved by the decision of the local planning authority to refuse permission or to grant permission or approval subject to conditions, an appeal may be made to the First Secretary of State at the Department for Communities and Local Government in accordance with Section 78 of the Town and Country Planning Act 1990 within six months of the date of this notice. However, if an enforcement notice is subsequently served relating to the same or substantially similar land and development and you want to appeal you must do so within 28 days of the service of the enforcement notice, or within 6 months of the date of this notice, whichever period expires earlier.

Appeals must be made on a form which is obtainable from the Planning Inspectorate, Customer Support Unit, Temple Quay House. 2 The Square. Temple Quay. Bristol BS1 6PN or from the Planning Inspectorate's web site, www.planning.inspectorate.gov.uk

- (2) When submitting the completed appeal form to the Planning Inspectorate, a copy should be sent to Planning, London Borough of Havering, 5th Floor Mercury House, Mercury Gardens, Romford, RM1 3SL. The First Secretary of State has power to allow a longer period for the giving of a notice of appeal but will not normally be prepared to exercise these powers unless there are special circumstances which excuse the delay in giving notice of appeal. The First Secretary of State is not required to entertain an appeal if it appears that permission for the proposed development could not have been granted by the local planning authority, or could not have been so granted otherwise than subject to the conditions imposed by them, having regard to the statutory requirements to the provisions of the development order, and to any directions given under the order. Where the decision of the local planning authority is based upon a direction from the First Secretary; it is not the practise to refuse to accept appeals solely because of this direction.
- (3) If permission to develop land is refused or granted subject to conditions, whether by the local planning authority or by the First Secretary of State and the owner of the land claims that the land has become incapable of reasonable beneficial use in its existing state and cannot be rendered capable of reasonably beneficial use by the carrying out of any development which has been or would be permitted, a purchase notice may be served on the London Borough of Havering requiring the council to purchase the land in accordance with the provision of Part VI of the Town and Country Planning Act 1990.
- (4) In certain circumstances, a claim may be made against the local planning authority for compensation where there has been an appeal or where an application has been referred to the First Secretary, and where planning permission is refused or granted subject to conditions. The circumstances in which such compensation is payable are set out in section 114 of the Town and Country Planning Act 1990.
- (5) The statutory requirements are those set out in section 79(6) of the Town and Country Planning Act 1990, namely Sections 70, 71 and 72(1) of the Act.

You are reminded that Building Regulations approval may also be required for these works. You must contact the Building Control Manager or Building Inspector to confirm if permission is required.

Note: Following a change in government legislation a fee is now required for the request for Submission of details pursuant to discharge of conditions in order to comply with the Town and Country Planning (Fees for Applications and Deemed Applications) (Amendment) (England) Regulations, which came into force from 06/04/2008. A fee of £116 per request (or £34 where the related permission was for extending or altering a dwellinghouse) will be required.
