Description of Proposed Works

Please describe the proposed works

This application is to redesign and landscape the front garden at 49 Heath Drive, dividing the garden into three zones, a shrubbery, a grass lawn and hard standing gravel driveway. The three zones will be divided by natural kerb stone with the reuse of York stone to form a pathway from the front gate leading to the front door. The majority of the area being soft standing with a grass lawn and shrubbery. The grass lawn will be viewed from the gate and also via the driveway

This proposed scheme adheres to the planning policy of not less than 40% of the front garden to remain as soft standing. This proposed development achieves a soft standing retention rate of 55% of the front garden. The hedges that provide a marker for the boundary will remain keeping the character as originally intended by the original 1911 architects
