

Statement in support of a Planning application proposed extensions to 10 The Drive Harold Wood

This application is made following the refusal of the 4m first floor extension element of the earlier application made this year (P0140.24).

The size of the first floor rear extension is now reduced to 3m deep and 5m in width following a discussion with officer Aiden Hughes.

It would be helpful if this application could be assigned to Aiden Hughes (who assessed the previous application) to maintain continuity in the planning process. I would also be grateful if the officer assessing the application discuss any queries with the agent John Noble (Mob no. 07468 708258) so that any necessary alterations could be made instead of refusing the application.
