

DATASHEET

CLICK 'N GO LIGHT SEDUMTRAY

MATERIAL

The Sempergreen Click 'n go Light Sedumtray is a container made of recycled Polypropylene (PP). The Sedumtray is cultivated with a minimum of 12 different Sedum species. With each delivery, there are at least 6 to 8 species present. The plants grow on a Sempergreen tray substrate. Sedumtray boast at least 95% coverage upon delivery.

ABOUT THE VEGETATION

The sebaceous Sedum plants are adept at storing water in their leaves and are therefore extremely suitable for varying weather conditions. During the bloom time, the diversity of Sedum species provides nutrition for pollinators like bees and butterflies.

APPLICABILITY

The Click 'n go Light Sedumtray is a ready-to-use tray that can be applied on roofs with a slope of 0 to 20 degrees. If the roof pitch is more than 10 degrees, we recommend the incorporation of anti-shear measures. The plants are best suited to a location in the sun or partial shade.

DELIVERY AND INSTALLATION

The Click 'n go Light Sedumtrays can be ordered per piece. We recommend placing the trays in the shade immediately after delivery, and installing them on the roof as soon as possible. On hot days above 25 °C, installation within 24 hours after delivery is essential.

The installation of the Sedumtrays is very simple: the trays can be clicked together. To protect the roofing, we recommend placing a [protective cover](#) underneath the trays. This cover can also absorb 3 l/m² of water.

TECHNICAL DATA

Coverage	95%
Weight when dry	approx. 8 kg/tray, 37 kg/m ²
Saturated weight	approx. 11.7 kg/tray, 55 kg/m ²
Water buffering capacity	18 l/m ²
Height excl. vegetation	5 cm
Height incl. vegetation	7 - 9 cm
Dimensions	37.3 x 57.3 cm
<i>For the outer row of trays, please take into account a size of 39 x 59 cm per tray during installation.</i>	
Trays per m ²	4.68 items
Trays / m ² per pallet	95 items / 20.30 m ²
Dimensions pallet	120 cm x 100 cm
Maintenance instructions	download on website

PLANT LIST

SEDUMTRAYS

This plant list is an overview of the species used for the cultivation of Sempergreen Sedumtrays. Based on more than 25 years of experience, the best Sedum species for green roofs have been selected. The Sedumtrays are always cultivated with at least 12 different species. Depending on the specific (weather) conditions during cultivation and the season of delivery, some plant species grow better than others. Each delivery contains a diversity of at least 6 to 8 Sedum species.

	NAME	BLOOM TIME	FLOWER COLOUR	MAX. HEIGHT
1	Sedum acre 'Golden Carpet'	June - July	yellow	10 cm
2	Sedum album	June - July	white, light pink	10 cm
3	Sedum ellacombianum	June - August	yellow	10 cm
4	Sedum floriferum 'Weihenstephaner Gold'	May - July	yellow	10 cm
5	Sedum forsterianum	June - July	yellow	30 cm
6	Sedum hispanicum	June - August	white	10 cm
7	Sedum hybridum 'Czar's Gold'	May - June / Aug - Sept	yellow	15 cm
8	Sedum kamtschaticum	June - September	yellow	15 cm
9	Sedum middendorffianum	June - August	yellow	15 cm
10	Sedum montanum	June - August	yellow	15 cm
11	Sedum reflexum	June - August	yellow	25 cm
12	Sedum rupestre	June - July	yellow	30 cm
13	Sedum selskianum 'Goldilocks'	August - September	yellow	20 cm
14	Sedum sexangulare	June - August	yellow	10 cm
15	Sedum spurium 'Coccineum'	July - August	pink, red	10 cm
16	Sedum spurium 'Summer Glory'	June - August	pink, red	15 cm
17	Sedum spurium 'Summer Snow'	July - September	white	20 cm
18	Sedum spurium 'Voodoo'	June - August	red	20 cm
